DETAILED ACTION

Specie election

This application contains claims directed to the following patentably distinct species of the claimed invention: compounds of formula I and II (as shown in claim 1) useful in the methods herein.

Claims 1-96 are generic to a plurality of disclosed patentably distinct species comprising different compounds of formula I and formula II compounds (as recited in claim 1). The claims as presented contain such vast multitude of "possibilities and permutations" for formula I and formula II compounds (as recited in claim 1) that the search for all presents an undue burden on the office. As shown in the restriction requirement the different species are classified in different subclasses: class 514, subclass 616, 613, 617, 247+, 211 for example. Due to the structural diversity in formula I and formula II compounds encompassed by the claims, and corresponding diversity in classification, the search for all species is considered an undue burden on the office. Note that the search is not limited to patent files.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species (i.e., a single formula I compound or a formula II compound), even though this requirement is traversed.

Applicant must elect one compound of formula I OR a compound of formula II commensurate with the elected invention in response to this office action.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

Art Unit: 1617

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that in order for the reply to this requirement to be complete it must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mojdeh Bahar whose telephone number is (703) 305-1007. The examiner can normally be reached on (703) 305-1007 from 8:30 a.m. to 6:30 p.m. Monday, Tuesday, Thursday and Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Minna Moezie, J.D., can be reached on (703) 308-4612. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-4556.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1235.
